Select Basement Waterproofing  
Jerome Fokas

Jerome and team:

We wanted to take the time to thank you for the work you did in our home. Our water problem didn't allow us to use our basement for almost 6 months. The drain put outside is working perfectly, and the sump pump is keeping everything dry inside. You did everything you said you would, and worked through some unexpected changes without taking much extra time or requesting funds above the original quote. You guys were unbelievable all around company. From, Jerome in our house giving us a really fare estimate, to the job, and clean-up was perfect.

We also appreciate the reference given for Carlos to complete the job. The finishing touches on our new dry basement have allowed us to finally use it! His team was extremely professional and the work they did is beautiful.

Thanks again – we really appreciate it!

Donald Morrissey & Nicole Cledic
